

Dear Parent / Carer

Welcome to Flourish, the new school lunch programme from Caring Cooks.

All of our meals will be freshly prepared every day from our local kitchen with love and care for your children, using great quality ingredients that are sourced locally where possible.

The menu has been developed in collaboration with our local Food and Nutrition Strategies, the Health and Wellbeing Dietitian, Government of Jersey and meets the School Food Standards which you will find within this Welcome Pack. It has also been developed with input from you as parents and your children, so we hope they will enjoy the meals available. We will continue to work with you and your children as we develop our future menus and we hope to be hosting a fun taster session in August, more information to follow by email.

The menu for the Autumn term is included within this pack and you will soon be able to order online with our service provider Bluerunner. The link to access registration is Flourish.myschoolmealorder.com. This link will be live by mid August to all parents / carers that have submitted a registration form. Please note there is no obligation to order hot school meals if you register with Bluerunner. Please could you return registration forms to your school by Monday 15 July 2019, however if you would like to return these by email please send to the CYPES contact email stated below (emails can be accepted throughout the summer break).

Caring Cooks, the Health and Wellbeing Dietitian and Children, Young People, Education & Skills Dept will always be on hand to help, the contact details are below –

This programme has been made possible through a partnership between the Government of Jersey and Caring Cooks. It complements other programmes being piloted in schools through the work of the government's Food and Nutrition Strategy, which aims to ensure good nutrition for all children in Jersey

Caring Cooks have been supporting families in Jersey to access nutritious food for 5 years and Flourish completes our ethos of growing, cooking and eating healthy food in childhood and beyond.

We look forward to feeding your children from September and supporting them to flourish.

Yours sincerely

Melissa Nobrega
Founder and Chief Executive
Caring Cooks

Martin Knight
Director of Public Health Policy
Government of Jersey
